Glow maintenance: Model Thais Dos Santos keeps skin soft by layering Embryolisse Lait Crème Concentré and Clinique Moisture Surge.

NEIL SADICK, MD

INSPECTOR GADGET

SPECIALTY: Sadick, whose Park Avenue office houses over \$2 million in laser equipment, doesn't think beauty boosts can only be had in the derm's chair: He's a proponent of at-home LED and hair-removal devices.

SECRET WEAPON: "My favorite prescription antiaging product is Renova," says Sadick, who acts as Dior's global medical adviser. "It's the gold standard for stimulating collagen without irritation."

QUICK FIX: "For pigmentation and redness issues, IPL, or intense pulsed light, is great and has no downtime," he says.

THE KIT

(From far left) Sadick recommends **NEOCUTIS JOURNÉE Biorestorative Day Cream** following laser treatments, because it "stimulates collagen cells"; the coffeeberry in **REVALÉ SKIN Replenishing Eye Therapy** is "a potent anti-inflammatory antioxidant"; **DIOR Capture Totale** "boosts cell turnover"; **LA ROCHE-POSAY Effaclar Purifying Foaming Gel** "keeps oil at an even level."

Dos Santos: Thimo Sander; all still lifes: Steven Krause; Sadick: courtesy of subject
